

## PROPOSED TEMPORARY ROAD CLOSURE OF DUDSBURY CRESCENT, FERNDOWN

I have received an application from Wessex Water, to close Dudsbury Crescent, Ferndown from approximately outside 48, to approximately outside 36, a distance of approximately 80 metres. The closure has been requested to allow Wessex Water to carry out the construction of a new sewer and associated manholes. These works are programmed to commence from the 1st February 2016 for 8 weeks days with an end date of the 27th March 2016. The road closure is necessary for safety reasons, as the works will take place within the whole width of the carriageway.

Wessex Water will publicise the road closure in a number of ways: they will place information boards on the road in this area to inform the travelling public of the works; they will carry out a letter drop to local residents directly affected by the works; and they will sign a vehicular diversion route using the local road network. The following map shows the extent of the closure and the diversion route.

This document is for information only. However, if you have any concerns about this proposal, please contact Marc Cutler, (roadspacemanagement@dorsetcc.gov.uk) by the 11 January 2016.
