Parish Council
&
West Parley
Residents Association**

Our Grass Verges

The grass verges are an attractive part of our community. They help make West Parley what it is.

Economies in grass cutting by the County and District Councils are leaving the verges in poor shape.

Your **Parish Council is looking into the funding to see if we could take over grass cutting ourselves. **West Parley Volunteers** are doing what they can, but it is a big job.**

CAN YOU HELP?

For the time being, if those of us who are able, could all try to look after the grass in front of our houses that will be a BIG help.

THANK YOU
